Expectations met – Solid outlook

On January 30, 2009, ATOSS released the key figures for the fiscal year 2008. The reported figures correspond to our expectations. Based on the fiscal year 2008 sales fell slightly short of expectations, while the EBIT (roughly EUR 5 m) exactly met expectations. The result on an annual basis slightly surpassed SES' expectation after the actual tax burden (EUR 3.5 m compared to EUR 3.3 m e) was calculated. The complete annual accounts will be released on March 12, 2009.

The good figures do not give reason to considerably adjust the estimates. Solely the sales expectations are slightly reduced. However, there's no need to adjust the earnings due to the good sales mix (software/consulting). This is also in line with the outlook given by the company. **ATOSS plans to continue sales and earnings on the previous year's record level in the recession year 2009.**

The company's liquidity was EUR 14 m at the end of the year. This is not opposed by noteworthy financial liabilities. This liquidity corresponds to approx. half of the current market capitalisation and impressively shows the **share's current undervaluation**: Adjusted by this liquidity ATOSS' PER for 2009 is just about 4. The BUY rating is reiterated with a PT of EUR 14.
