Strong Q3 - PT slightly increased

On October 12, 2010 ATOSS Software AG has released **preliminary 9M figures** for 2010 and has adjusted its outlook. The company now anticipates an EBIT well in excess of EUR 6m after having expected an EBIT at the previous year's level before.

The published figures **exceeded expectations** with the profitability being particularly strong. The 9M EBIT margin came in at 25%, while it was a mere 20% historically. Overall, the published numbers are the company's best result on a nine-month basis.

The high margin can be put down to two factors in particular:

- Firstly, Q3 continued to see **high license revenues** which had a positive impact on the overall sales quality.
- Secondly, the company's **investments in sales and distribution capacities were cautious** in the current year in spite of high R&D investments.

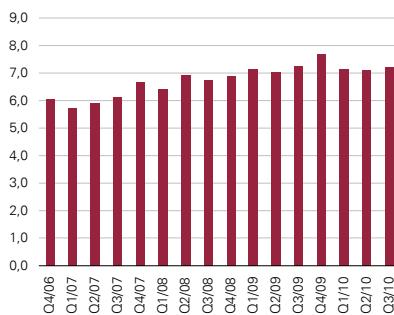

Both of the above led to **the high margin in the period under review**. The 2010 earnings estimates are therefore revised upwards. Given that investments in sales & marketing are expected to be raised and that R&D investments will continue to grow the earnings estimates for the following years are left unchanged for the time being. The financial result forecasts are slightly reduced.

The adjustment of estimates results in a slight increase of the PT from EUR 19.30 to EUR 19.60. Buy rating reiterated.

Company background

ATOSS Software AG is a provider of software and services to optimise the deployment. With its solutions ATOSS optimises personnel processes and thus improves the service level, the efficiency as well as the employee and customer satisfaction. The company has assumed a leading position particularly in the German speaking area: 4,000 companies and approx. 2.5 m employees use ATOSS solutions from SMEs to blue chip companies.

Competitive quality

As to competition ATOSS primarily benefits from the following strengths:

- ATOSS has a leading software product (state-of-the-art Java technology)
- ATOSS is specialised in regions and sectors (country-specific employment conditions in the DACH region and reproduction of working processes in the core sectors)
- ATOSS is independent of manufacturers (no commitment to hardware of large software manufacturers)
- The solutions of ATOSS are highly compatible (e.g. seamless integration in ERP systems possible)
- The financial stability and balance sheet quality of ATOSS are excellent.
- ATOSS is a relatively large supplier (compared to competitors who are often considerably smaller; this is quite important for ATOSS)
